

This product is a new non-chlorinated low odor solvent for a variety of precision cleaning applications. It is non-flammable, fast drying, non-conductive, residue-free and is not subject to regulation under SARA, HAP, or RCRA. It has solvency and cleaning performance equivalent to 1,1,1-trichloroethane and its low viscosity allows for good penetration in difficult to clean crevices, making it an ideal solvent for use in a variety of precision cleaning applications. Under normal aerosol spray use, this product is safe on many plastics and elastomers such as HDPE, polypropylene, phenolic, polyvinyl fluoride, polyurethane and many others; however, certain plastics such as ABS, PVC, polycarbonates and others may be affected. It is compatible with most metals such as aluminum, brass, carbon steel, stainless steel, copper, titanium, magnesium and zinc.

#### DIRECTIONS

Test in an inconspicuous area before use. Spray generously over the surface to be cleaned until completely wet. Allow the solvent to set for a minute, then wipe or rinse off with a second spray. Use only with adequate ventilation.

**Safety Cautions:** Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 120°F may cause bursting.

## K-CHEM 2002 SAFETY SOLVENT

### Safety Solvent Degreaser

- **Non-ozone Depleting, Non-chlorinated Solvent**
  - **Non-flammable**
  - **Non-conductive To 24,000 Volts**
  - **Fast Drying, Leaves No Residue**
    - **Low Odor**
    - **High Solvency**

### DANGER

**HARMFUL OR FATAL IF SWALLOWED**

**VAPOR HARMFUL**

**KEEP OUT OF REACH OF CHILDREN**

**Contents under pressure**

**See additional cautions on side panels**

**NET CONTENTS: 12oz. (340 g)**

*Sold Exclusively By:*

P.O. Box 530632  
Birmingham, Alabama 35253-0632

For Reorder Phone: (205) 592-0844 Fax: (205) 592-8106

**Exposure:** Overexposure and toxicity depend upon duration of exposure. Symptoms of overexposure include dizziness, nausea, headache, and even loss of consciousness. Aspiration may be a hazard. May be harmful or fatal if swallowed.

**FIRST AID: If swallowed:** Do not induce vomiting. Get medical attention immediately. **If inhaled:** Remove to fresh air. If breathing has stopped, administer artificial respiration. Get medical attention. **If on skin:** Thoroughly wash with soap and water. Get medical attention if irritation persists. **If in eyes:** Flush with liberal amounts of water lifting eyelids occasionally. Consult physician.

This product is designed exclusively for industrial and institutional use by trained personnel. This product is sold as is and the manufacturer makes no warranty, express or implied, of merchantability, fitness for a particular purpose or otherwise.

**HMIS RATINGS:** Health: 2; Flammability: 1; Reactivity: 0; Personal Protection: G

**INGREDIENTS (CAS #):** n-Propyl Bromide (106-94-5), Carbon dioxide / Dioxido De Carbono (124-38-9)
