

## FAST SOLVENT DEGREASER

This product is one of the most powerful industrial solvent cleaners available. It is fast drying, nonflammable, nonconductive and completely non-ozone depleting. The low odor formulation leaves no residue and does not contain methylene chloride. A unique feature of FAST SOLVENT DEGREASER is the special dual action vavking system which allows for both a misting spray for broad area degreasing and a blasting spray for hard to reach areas and extra deposit removal power.

Use this product to remove grease, oil, dirt and other deposits from electric motors, power equipment, printing presses, conveyor/escators, and virtually any metal equipment or parts cleaning. While excellent as a multi-purpose industrial cleaner, this product has the advantage of dielectric strength for use on live electrical equipment. As with most chlorinated solvent based products, this formula will affect certain plastics and rubbers. Always test in an inconspicuous area to check product for compatibility.

### DIRECTIONS:

Remove cap and point actuator toward surface to be cleaned.

**MIST SPRAY :** Place finger on top of actuator and press down to mist broad surfaces to be cleaned. Saturate to desired level.

**BLAST SPRAY :** Place finger behind actuator and push forward for blast/steam spray into nooks and crannies or for extra power on stubborn deposits on any area.

Allow solvent to remain in contact for 30 seconds to one minute and then wipe or air dry. Repeat as necessary to achieve desired results. Extra heavy deposits may require brushing. Check to be sure bristles are compatible with this solvent before using.

**NOTE :** This product is nonflammable and nonconductive and therefore can be used while equipment is operating.

**IMPORTANT :** This product will affect certain plastics and rubbers. Always test in an inconspicuous area to check product for compatibility.

### WARNING:

Vapor harmful. Contains Perchloroethylene and Trichloroethylene. Use with adequate ventilation to keep exposure levels below the 25 parts per million OSHA permissible exposure limit (PEL) during an eight hour period (time weighted average). Consult the product/material safety data sheet for additional information regarding exposure concerns. Avoid inhalation of spray mist or vapors. If overcome by fumes, remove victim to fresh air. Resuscitate if necessary. Get medical attention. Avoid contact with eyes and skin. In case of eye contact, flush immediately with plenty of water and continue for 15 minutes. If discomfort persists, see a physician. Contents under pressure. Do not puncture or incinerate container. Do not expose to heat or store at temperatures above 120°F. Contains Perchloroethylene and Trichloroethylene which are known to the state of California to cause cancer. KEEP OUT OF REACH OF CHILDREN.

# FAST SOLVENT DEGREASER

- High Solvency Cleaning Power
- Leaves No Residue, Dries Fast
- Non-Ozone Depleting: No CFCs or HCFCs
- Nonconductive to 29,000 Volts
- Nonflammable and Low Odor
- Dual Action Spray - Mist/Blast

### WARNING: VAPOR HARMFUL

Keep Out Of Reach Of Children  
CONTENTS UNDER PRESSURE.  
SEE OTHER CAUTIONS ON BACK PANEL.

NET WT. 16oz. (454g)
